

# Leaders in Horticulture

## Royal Brinkman in brief

Brinkman is a total supplier to the professional horticultural industry. Royal Brinkman's customers include vegetables, flowers, potplants and tree nurseries. Thanks to our enthusiastic team and a product range of over 30.000 quality products, we always can guarantee our clients top quality.

Royal Brinkman was established in 1885 and has, therefore, been active for more than 125 years in the field of horticulture. In the early days, Mr C. Brinkman started the company from a property in 's-Gravenzande (Netherlands).

Presently, more than 125 years later, Brinkman is one of the world's leading, reputable suppliers in horticulture and has well over 250 employees world wide.

# Introduction

Besides the head office in 's-Gravenzande and the branches in Holland, Royal Brinkman also has its own local facilities in Mexico, UK, Poland, France, Spain, Czech Rep. and Hungary and is expanding. Other parts of the world are covered with agents, dealers are directly managed from our head office.

Royal Brinkman is specialized in the field of Horticulture from very simple horticultural products to high-tech equipment or full Turn Key projects. Royal Brinkman has specialists in each field in house. This qualified staff is at your disposal 24/7. High quality products, high quality service and reliability are our key values.

Royal Brinkman services do not end with the delivery of the goods or when a projects has been established. This is for us the start of a fruitful cooperation.

Together with you we always try to find the best solutions for each problem. Royal Brinkman will always offer you A-class products like (grow)technical service, technical installations, chemicals, fertilizers, all equipment for crop treatment like cleaning, spaying and harvesting. Also we offer full solution for post-harvest logistic systems.

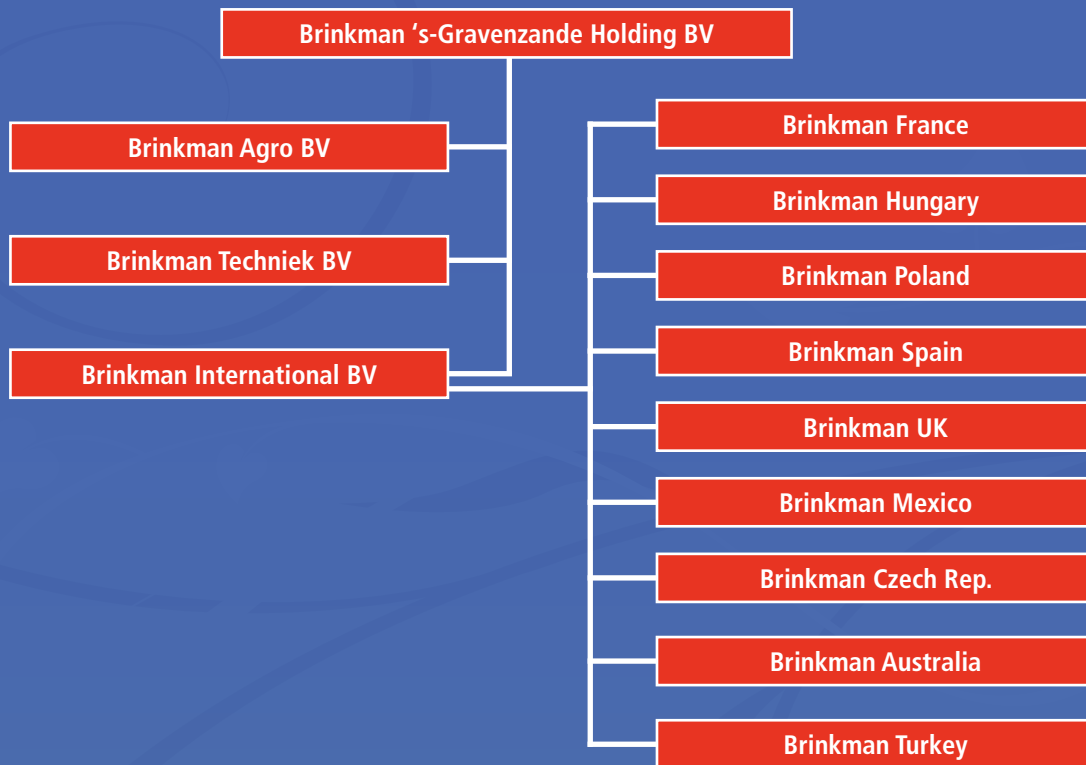

The mission of Royal Brinkman is to offer growers world wide the best service possible through:

- Experience
- Knowledge
- Professionalism

Royal Brinkman vision is based on four key concepts:

- Client oriented
- Reliability
- Up-to-date
- Leaders in Horticulture

# International

The head office of Royal Brinkman is situated in 's-Gravenzande, the heart of Westland greenhouse production area. For the supply and distribution of horticultural products, Royal Brinkman also has 7 other branches in the main production areas. All Dutch branches are equipped with a showroom and have local sales and service teams for you available.

In addition to that, Royal Brinkman has followed the global trends and internationalization of horticultural markets by setting up an international network of branches and offices in several countries such as:

- United Kingdom
- Belgium
- France
- Spain
- Poland
- Hungary
- Mexico
- Czech Rep.
- Turkey
- Australia

All other export activities for other countries in the world are managed through dealer, agencies are directly managed from Brinkman International at our head office situated in the Netherlands.

## Modern logistics

Royal Brinkman branches stock the most common items from our wide range of products available. Growers can place an order via e-mail, telephone or fax. Clients can either pick up their order at one of the various branches or have their order delivered thanks to our extensive delivery/shipping system.

At our central distribution centre in 's-Gravenzande and branches abroad, we work with state-of-the-art storage

and stock control systems. A single, sophisticated robotic system is able to handle approximately 9.000 technical parts. Together with the storage system for fertilizers, crop protection products and the remaining storage facilities, Brinkman's stock control system meets all the requirements expected from a modern horticultural supplier.

# Logistics

Specialist with many years of experience take care that your products will be packed and distributed the most effective and reliable way. We can support you with all necessary documents, inspections and transport bookings.

Whether your product will be sent by courier or transported by road, ship or plane, we are proud to say that our team of logistic specialists will make sure that your product will arrive on time and in good shape.

## The market is changing

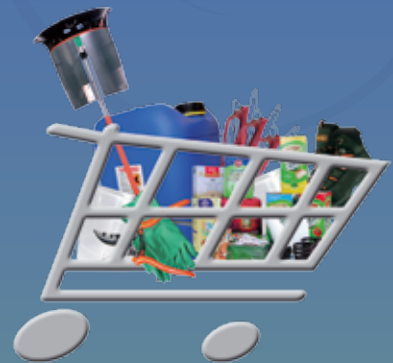

The dynamic glasshouse industry is now dealing with an increase in scale and globalisation. Running a nursery, nowadays, requires a professional approach. We anticipate this with a segmented method. We have, for instance, field advisors, which are active in the areas of flower or vegetable growing. Furthermore, we participate in the latest developments such as E-commerce. Brinkman aims to be your partner in horticultural innovation and that is what we repeatedly prove to be, day in day out. With Brinkman, you will always be ahead in the field of horticulture, because... The Brinkman specialists are your specialists as well!

# Brinkman.com

Growers from all over the world are able to check their needs online. To enable growers to investigate and choose the right product, Royal Brinkman has developed a complete website, which is considered clear and easy to use.

In case you need any further assistance or advice, you always can contact our sales representatives or our product specialists. For the latest information please visit the Brinkman website at [www.brinkman.com](http://www.brinkman.com)
